

UMARJON MUHAMMADJONOV

AI & ROBOTICS STUDENT · SOFTWARE DEVELOPER

Namangan, Uzbekistan · +998 97 123 36 67 · umarjonmx@gmail.com
umarjonmx.uz · github.com/UmarjonMX

PROFILE

AI & Robotics student with a foundation in backend and full-stack development and a strong interest in software, artificial intelligence and robotics. I learn by building practical projects and participating in hackathons, IT camps and technology communities. Currently strengthening my knowledge of Algorithms & Data Structures, Artificial Intelligence, Robotics and Machine Learning, with a focus on turning ideas into useful products.

EDUCATION

International Digital University (IDU)

2026 – Present

B.Sc. — Artificial Intelligence & Robotics

Namangan City Specialized Boarding School No. 1

2022 – 2026

Specialized secondary education

TECHNICAL SKILLS

Programming: Python · JavaScript · HTML · CSS

Backend: Django · Backend development

Tools: Git · GitHub · Linux · Terminal · VS Code

Other: Canva · Adobe Photoshop · Blender

CURRENT LEARNING

Algorithms & Data Structures · Artificial Intelligence · Robotics · Machine Learning

SELECTED PROJECTS

- **Weather Bot** — Telegram bot using a weather API, with daily weather updates and automated delivery of weather information.
- **Anonymous Community Bot** — anonymous messaging bot for school/university communities with AI-assisted inappropriate-language filtering and admin-controlled media handling.
